

# Postgres Women India Upskill Program – H2 Batch 2025 | FAQs

## Q1. Who can attend this program?

This program is designed for:

- College students (CS, IT, Data, or related fields)
- Early-career professionals looking to strengthen database skills
- Women returning to the workforce
- Open source enthusiasts interested in PostgreSQL
- Career switchers exploring databases, AI, or data engineering

## Q2. Do I need prior PostgreSQL knowledge?

No. The program starts with fundamentals, making it beginner-friendly, and then introduces advanced concepts at a steady pace.

## Q3. What will I gain from this program?

You'll walk away with:

- Job-ready PostgreSQL and AI skills
- Confidence to work on real-world projects
- Mentorship from experienced professionals
- An inclusive, safe environment for learning and growth
- Connections within the PostgreSQL, Data, and AI ecosystems

## Q4. Why should I choose this program over others?

This is more than a training course—it's a **community-powered learning experience**. You'll not only learn PostgreSQL and AI but also join a network of professionals, mentors, and peers who will guide your career path. You will also get opportunities to attend free Meetups and exposure to most happening Postgres events across the world.

## Q5. How much does it cost?

The H2 2025 Batch is priced at **₹9,999/-**, ensuring access to quality learning, mentorship, and long-term program continuity.

## Q6. Is financial assistance available?

Yes, we provide options for financial assistance to ensure learning is accessible to everyone. Please reach out for details.

## Q7. How do I register?
